

www.environmentalprofessionals.eu

ENEP is the European electronic Network of Environmental Professionals. It is a web portal set up by EFAEP (European Federation of Associations of Environmental Professionals), where its members can record their contact and professional details and where both members of EFAEP and non-members can search for environmental professionals.

The two main aims of ENEP are:

1. to facilitate active communication and exchange of knowledge between EFAEP members, and
2. to provide access to the expertise and experience of environmental professionals at the European level.

This will also give the environmental professionals of Europe a platform where they can present their professional profiles, where they can get in touch with each other, and where clients and service providers can meet.

EFAEP is an association of environmental professionals from all over Europe and was founded in 2002 in response to the increasingly important and diverse role of environmental professionals. The restoration, protection and enhancement of the environment is no longer a secondary phenomenon but has penetrated all areas of life. In response to the growing sensitivity of society to environmental issues, the activities of environmental professionals have been steadily growing over the past decades and have become an unquestionable necessity.

EFAEP brings together professionals who are working in the field of the environment all over Europe and gives them an opportunity to exchange their experiences from their home countries, to find common solutions and to learn from successes and failures made in the current and future member countries of the European Union.

ENEP is the unique web tool EFAEP uses to connect its more than 15,000 members. It is currently the only internet site in Europe letting environmental professionals thoroughly describe their own experience and capabilities, effectively classify their skills, and quote their papers and projects in order to build a really complete profile.
